Start Your Career With Usher Transport

Though we are a nationwide carrier, our areas of operation allow us to recruit from both regional and local settings which provides our drivers and owner-operators the diversity and choice to run over-the-road, regional, dedicated, as well as locally.

The majority of our fleet spends less than two nights per week on overnight travel with most loads being either a one-day or day and a half trip. If you like to stay out a little longer, we can do that as well. One thing we can guarantee you is that you will not be out on a 7 to 14 day dispatch as with most carriers.

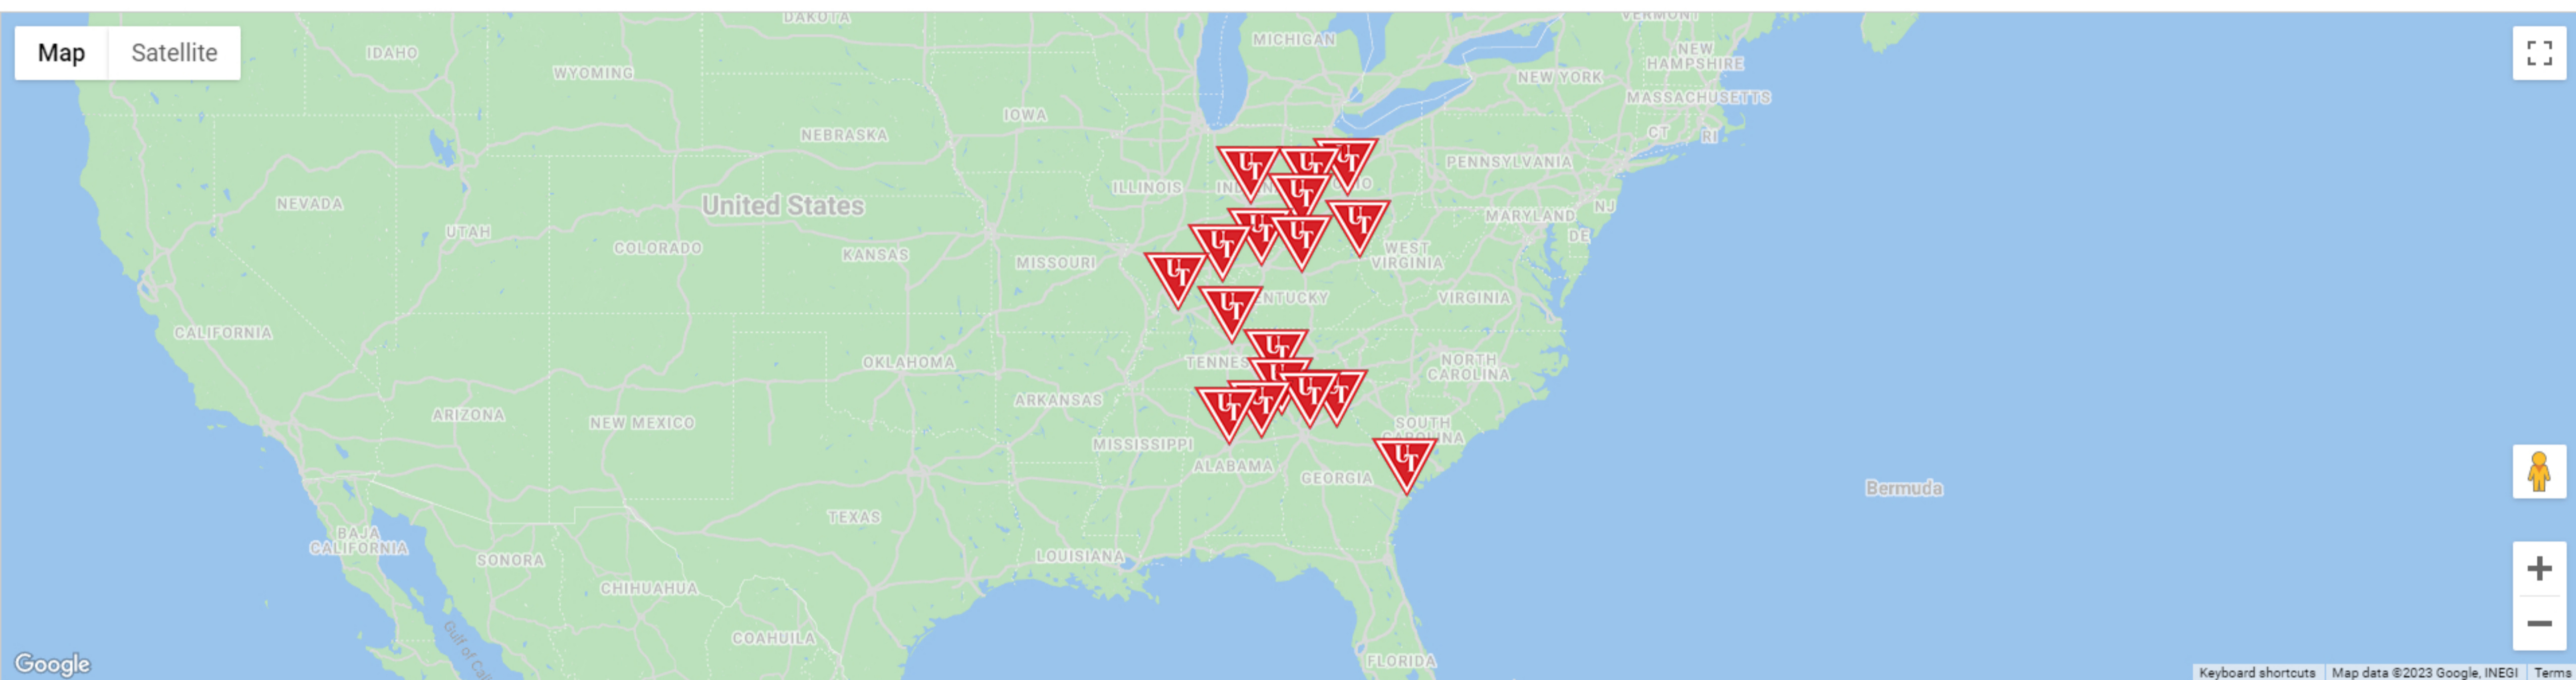

We are always open to accepting applications for any driving position within the company whether you are an owner-operator or company driver.

Testimonials

What Our Drivers Say

I have been with Usher Transport for almost 7 years and Usher is one of the most upright companies that I've ever worked for. The management and dispatchers work with us as a team and really care about us. It is a big deal knowing you have a good support staff behind you while out on the road.

CAL EASLEY

Such a great company to work for with endless opportunities to grow. I truly take pride in my work, also the management has our backs. The Usher team is like family and they care about my family as well.

JEFF STEWART

Best company I have ever worked for and very family oriented. They care about you and your family. Safety is #1.

JIMMIE HUFFER

Usher Transport

We provide safe and cost effective transportation solutions that empower our team of professionals and customers through championing integrity, respect, fairness, and accountability in all of our activities.
